PROPERTY DESCRIPTION

Dear reader, if you are looking for a true entertainer's paradise, you can stop your search here. This is your chance to experience drama, style and elegance all under one roof. Located in a cul-de-sac on a noticeably large lot, this home will leave you full of excitement and begging for the answer to one question: why do I need two swimming pools? And the answer you will discover is quite simple, because you can.

Exquisite travertine flooring compliments and highlights the richness of the Venetian plaster walls and throughout the home, arches and angles lead you from one room to the next, like a great master piece. The kitchen is fit for a king and his queen with stunning granite counter tops, oak pecan stained cabinets and the Viking appliances package includes warming oven and wine chiller. There is a full wet bar off the family room in addition to several serving stations strategically placed for utmost convenience. Outside you and your guests will enjoy a host of amenities and endless hours of fun in the sun in one or the other...or both swimming pools. The pool house is equipped with its own private patio area with a beehive fireplace and plenty of room to snuggle up to enjoy a chilly winter evening. At the poolside cabana you can whip up your favorite fare in the full service kitchen and serve ice cold drinks at the swim-up bar. Or perhaps you've had a long stressful day and relaxing in the spa is just what you need.

Sprawling across 4100 square feet, this home features a formal living area with dining, a large family room, 4 bedrooms plus a den and 4 bathrooms. There is also a 3 car side entry garage with an RV gate and parking. If the price of \$1,150,000 is comfortable for you, then trust your impulse to say "yes".
